

Infoblox NetMRI Official Hardware EOL Notification

Infoblox NetMRI hardware, which was introduced in March 2012, has been declared end-of-life. The NetMRI solution continues to be available on a virtual appliance hosted on VMware, KVM or RedHat OpenStack.

Key dates are as follows for the various appliance models:

Model #	End of Contract Renewal	End-of-Life	KB Article (Access to Infoblox Support Required)
NT-4000	31 January 2022	31 January 2023	https://support.infoblox.com/s/article/11157
NT-2200	30 April 2022	30 April 2023	https://support.infoblox.com/s/article/11525
NT-1400	30 April 2022	30 April 2023	https://support.infoblox.com/s/article/11525

Infoblox end-of-life policy: The date when Infoblox will cease limited support for a major or minor software version release and all maintenance and engineering for a hardware platform or software product ceases.

What to do if your NetMRI hardware appliances are end-of-life?

Our top tier, Platinum BuildingBLOX partner, Empowered Networks, has developed a comprehensive NetMRI migration program to help you move from hardware to next-generation virtual appliances quickly and safely.

Services include:

- Share details on the hardware/compute required
- Initiate the upgrade to latest software
- Set up the VM
- Ensure correct operation
- Migrate configuration to VM
- Monitor for correct operation
